541513 - Computer Facilities Services
541519 - Computer Related Services

About

GlobalTech Corp specializes in secure IT infrastructure and low-voltage systems integration across Puerto Rico. We design, deploy, and maintain mission-critical security, cabling, fiber, and data center infrastructure in regulated environments.

Core Competencies

- Video Surveillance Systems
- Data Cabling
- Data Room Solutions (MDF/IDF)
- Access Control
- Fiber Optic Cabling
- Wireless Antenna Solutions
- Audio/Visual Systems
- Secure Enterprise Wi-Fi Architecture

Differentiators

- 25+ years of experience
- HUBZone Certified Small Business
- Security-First Infrastructure Approach
- Experience in regulated environments
- Rapid mobilization across Puerto Rico
- Safety compliance (OSHA 10/30)
- Fluke-certified structured cabling
- CommScope Netconnect Certified
- SonicWall Certified MSSP

Past Performance

- Pentaq Mfg.
- Prama Corp.
- Propper Int'l
- Migrant Health Center
- HUB Advanced Networks LLC
- Genera PR
- Hardwick Tactical
- Oil Energy System
- Caribbean Cancer Care Services
- Transfuel Inc.

Sample Projects

- Completed enterprise fiber backbone deployments for mission-critical environments
- Enterprise Wi-Fi design, segmentation, encrypted architecture, and high-performance
- Delivered full-facility Cat6/Cat6A structured cabling installations (MDF/IDF buildouts, testing & certification)
- Implemented integrated IP surveillance systems with centralized monitoring and secure NVR architecture.
- Deployed multi-door access control systems with maglocks, credential readers, and centralized management
- Completed data and server room infrastructure buildouts including racks, grounding, and cable management.
